In the petition of Wm. H. Dunn to the court for an injunction against the payment of \$4,151,50 of the peo-ple's money to the above mentioned Chicago Industrial School for Girls, he cites Section 8 of Article VIII, of the Illinois constitution, which reads

as follows:

Neither the general assembly nor any county, city, town, township, school district, or other public corporation, shall ever make any apprepriation or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university or other literary or scientific institution, controlled by any church or sectarian denomination whatever; nor shall any grant or domatton of land, money or other personal property ever be made by the state or any such public corporation, to any church for any sectarian purpose.

The bill alleged, and the allegation

referred to and MUST, THEREFORE, BE

As before stated, the importance of this decision is far-reaching and, if sustained by the higher court as it would seem from the evidence and the disclosures it must be, these various Romish institutions should by law be compelled to reimburse the tax payers of Cook county to the extent of their unlawful receipts. To this end Mr. Dunn and a committee of patriots from several organizations, known as The Chicago Enforcement League, are now working on a case to be filed in the circuit court of Cook county for the refunding of this money by these institutions which have been recipients of these unlawful and ill-gotten

Of course the Chicago Industrial School for Girls, backed by its Romish sister institutions, has prayed an appeal to the supreme court of ll-linois. The outcome is problematical. No man can say to what extent the influence of Rome will be felt in the higher court. It is hoped that the supreme court will view this case from the standpoint of the constitutional law of the state, which, without ques-tion decisively forbids the payment of money to aid any church or sectarian purpose, or to help support or sustain any school, academy, seminary, col-lege, university, or other literary or scientific institution furthering sectarian interests. In this connection it might be well to state that this same question under other guises, has been up to the supreme court of this state before and some of the strongest decisions ever rendered in any state have been rendered here in the in-terests of SEPARATED CHURCH AND STATE.

A Growing Business

These child-trafficing institutions have enjoyed an ever-growing and flourishing business. The larger and more far-reaching they grow the larger and more far-reaching they desire to grow. The more poor people, especially widows, there are, the more children pass into their hands. In other words the juvenile court and the every delinquent and dependent child. industrial homes and schools into whose clutches the unfortunate youngsters fall, thrive upon the poverty of the people of Chicago. If benefit and furtherance of Romish in-everybody had sufficient food and terests which is ever the first considother necessities of life there would eration with the hierarchy. be no field in which they could function, and they would, as a result, pass

out of existence.

To illustrate the extent of the growth in Chicago alone we would call attention to the fact that in 1912 there were six of these schools to which Cook county paid approximate—

To illustrate the extent of the children were very much in evidence at Springfield, the state capital of Illinois. They were interested, according to their version, with the improvement of the Mothers' Pension Law.

To illustrate the extent of the count, Otherwise, without a hearing in the court, otherwise, without a hearing in the court, otherwise she is denied the benefits provided for by the Mothers' Pension Law.

Of course this is all very much in which Cook county paid approximately \$62,000 per year. In 1915, three years later, the number of Roman schools and institutions had increased the state of the state, and more particularly the tax payers of Chicago. to SIXTEEN in the county, to which the tax payers, through the county officials, paid approximately \$392,000.

Block Legislation Due to the ever zealous work of the promoters of the whole institution we find to the shame of humanitarianism that legislation tending to relieve the distress and poverty and dependence of the poor has been quietly but effectively opposed by these self-constituted guardians of child welfare.

To one who understands the laws out as possible beneficiaries strike out as possible beneficiaries competitors with such a powerful ergonication as the Roman Catholic ganisation as the Roman Catholic church which has been engaged in this and similar business ever since its early organization.

It is said, and I believe not denied, that every child coming into the detention home, whether for delinquency

of economic determinism and the system of economic determinism and the system of industry in which we live the causes back of this inframous practice and would continue to cost them to easily understood. The interest of human souls have ever been the interest of human souls have ever been make the terrest of human souls have ever been make the terrest of human souls have ever been make the manker of the law, as secondary to this upon a massing unimited private property, and what more thank the church of the law, as secondary to the interests of the himan that the church of the law, as the comporation on earth, should not be the property of the law, as the comporation of the interests of the himan to the composition of the law, which were stricted from the ext corporation of the interests of the himan to the composition by far the rich est corporation of the interests of the himan to the composition of the law o

each month, to be determined by the

In addition to this we find that two very arbitrary rulings were made by the court to the further disadvantage of the mothers and to the advantage of the whole juvenile system. One of these rules was to the effect that any of the mothers who, under the revised law came under its provision and re-In this connection it will be in order ceived pension benefits, were not per-mitted to "work out" in factories to state that other institutions, which, following the lead of Rome, were also in the race for these children, brought about by the virile laundries, doing washing or other petty remunerative pursuits. On the pension money alone they were sup-posed to provide for the children and and energetic competition of the church of Rome, which would, were it if caught doing work away from nome this support was withdrawn.

not for some Protestant activity, monopolize the business and secure the purpose of which was to investigate every petition for assistance from dependent methors. That is, when a mother made application It is a conceded fact that Rome was really the hub around which the whole juvenile system was builded—for the benefit and furtherance of Romish inwhen a mother made application for benefits provided for her by law, a committee investigates the merits of In July, 1915, Juvenile Judge Mer-ritt W. Pickney and committees rep-

Of course this is all very much in the interest of Romish institutions, which have been living upon the chil-dren turned over to their "tender mercy and care." Incidentally it is also tax payers of the state, and more particularly the tax payers of Chicago.

[So the lobbyists said.] Through their influence the Mothers' Pension Law was amended, in the sectarian institutions which have been sectarian institutions which have been sectarian institutions which have been

Heaven, their names changed and in court through which any mother apter the referred to before in this article. eat, pension money or other assistance, is immediately listed as a "dependent" and investigated. The fact that she appealed for a solution and investigated that she appealed for a solution and investigated. that she appealed for assistance is prima facia evidence that she is destitute and her children dependent. If she doesn't lose her children under these circumstances, it is said, she is extremely fortunate,

Rome Never Sleeps

That "Rome never sleeps" is prob-ably more forcibly exemplified in her insidious operations through the ju-venile court in Chicago than any other known manifestation. Her control of this institution is almost as complete,

Judge Merritt W. Pickney, who oc-cupied the juvenile court bench for five years was not a Roman Catholic her case and if passed upon favorably and yet the children coming under his merciless hand of Rome tearing chilby the committee she is permitted to jurisdiction—thousands of them—dren from the breasts of their sobpresent her claim to the court. Otherwere invariably consigned to Roman bing and heartbroken mothers, con-Catholic institutions unless their parents specifically designated otherwise, and even then Rome sometimes got them. Judge Pickney could offer the excuse that the institutions of this particular creed were the most availiteularly the tax payers of United State payers of United States payer able, and put up his hands with the

A Woman "Judge"

A very important personage con-nected with the juvenile court in Chi-cago is a woman judge, so-called, appointed by the regularly elected judge. This office was created on March 3, 1918. The duty of this woman judge is to try the cases of delinquent and dependent girls. Her office is situated, as it were, within the inner sanctuary from which the public is excluded Here the girls are taken and after. hearing the complaint of the probation officer, the girl's story and her mother's if she has one, the lady judge renders her verdict. Miss Mary Bartelme, who has held this office since its creation, is also very favorable to Romish institutions and it is said that the
